Thomson Reuters Publication Proposal

Thomson Reuters (Brookers Ltd) publishes a variety of media for professionals, practitioners and students in the legal, taxation, health and safety, business, Human Resources and accounting fields. If you have an idea for a publication whether in book, loose-leaf, digital or other format, please complete the following proposal form.

Please do not send whole, unsolicited scripts. Your proposal should include the following information:

- 1. Subject;
- 2. Working title;
- 3. Brief writing CV and contact details for you and any co-authors;
- 4. A brief description of the object of the work and its key selling points;
- 5. A draft table of contents and any sample material;
- 6. How this will differ from and be better than existing competing works;
- 7. Market;
- 8. Estimated length and delivery date.

	Please indicate su	niect area(s	covered by	v the publication
--	--------------------	--------------	------------	-------------------

1. About the authors
Full name
Address
E-mail
Telephone ()
Fax ()
Qualifications – Please attach CV if possible
Current position
Previous appointments/roles
Areas of practice/research interest

Have you previously published with Thomson Reuters or Brookers Ltd? Please provide details.
Have you published with other publishers? Please state title, publisher, date of publication, coauthors and attach any reviews of these products/publications.

Have you published with other publishers? Please state title, publisher, date of publication, co- authors and attach any reviews of these products/publications.

2. About the proposed product	
Suggested title	
Suggested price/s (Is the market price sensitive?)	
Number of pages (approx)	
Number of words (approx)	
Draft Table of contents (please attach)	
Synopsis of work (including background to proposal, rationale for content, aims of the work) (please attach)	
Will there be any accompanying electronic resources?	
Eg: sample precedents, forms, study questions, quizzes, student guides, lecturer resources	
Are there any flowcharts, forms, or diagrams etc?	
Proportion of these to overall publication (estimate)?	
Will copyright permissions be required?	
Suggested Manuscript Completion Date	
How frequently will the publication require updating (eg monthly, every two years, other)?	

3. About the market

What is the publication's target market? Describe the primary user (eg type of practitioner, student) and give details on how you see the product being used. Please be as detailed as possible, as this information is crucial in assessing the prospects of the work.			
Who else would this product appeal to?			
4. About the competition			
Please list any competing publications known to you, including title, author, date of publication and publisher. Give details of the positive strengths of your product over its competitors.			
5. About selling this product			
Briefly describe the strength and scope of your product. Include the particular need it fills in the market and its unique selling features.			
Do you have any ideas about special avenues for selling this product?			

Do you have access to any lists of people who might buy this product? How might they and other potential users be reached?
Can you suggest any prominent academics/practitioners to review the manuscript?
Are there any specific events or publishing deadlines that might affect the selling of the product (eg conference, academic year)?
If you are a lecturer, would you definitely prescribe this book to your students? How many students do you teach per year? How often is the course offered?
6. Additional comments?
